Pop Up Display Stands

Pop up displays are the most popular trade show display for making large image walls and back wall graphics. They consist of a collapsible scissor truss that expands or pops up into a full size framework that supports your graphic or fabric panels. They are lightweight and easy to setup, taking a single person less than 15 minutes to assemble, but they create a solid impression for your graphics.

All Plastic Connector

Velcro Fabric Pop Up Display Stand

Quick Set pop up displays are very easy to set up and even easier to transport because they are very lightweight. These displays are available in multiple shapes and sizes to fit any trade show booth. Its foldable grid system enables a quick and uncomplicated set up and offers space for a large scale banner ad printed on light fabric.

Spotlight for Pop Up Display Stands

Banner stand lighting is a valuable addition to any banner stand display, especially those being used in a trade show environment. Low voltage banner stand spotlights help to illuminate your graphics and make your display stand out among the crowd. Trade shows are not usually well lit, so displays without extra lighting tend to look dull compared with those that have banner stand spotlights. That makes banner stand lighting a very cost effective method to get more attention from potential customers.
